

LBT OBSERVING REQUEST

A Fake LBC-SDT Proposal

P.I.:

Xiaohui Fan (Arizona; *fan@as.arizona.edu*; 520-626-7558)

CoI(s):

Jill Bechtold (Arizona)

Abstract of Scientific Justification

We propose to use this format for LBT proposal at Steward

Summary of observing runs requested for this project

Run	Telescope	Cage	Instrument	Nights	Moon	Optimal	Acceptable
1	LBT	Prime	Blue	1	dark	Feb	Jan-March
2	LBT	Prime	Blue+Red	1	grey	May	April-June

Scheduling constraints and unusable dates (up to 4 lines): _____

Target list (attach list if longer than 26 objects)

#	Object	RA	Dec	mag / color / type / redshift / comment / etc.
1	Fall Equinox	12:00:00	+00:00:00	empty field
2	Summer Solstice	18:00:00	-23:27:30	crowded field

■ Scientific Justification

You have two pages here plus two pages of Figures and references

Figure 1: A three-color deep image of the face-on galaxy NGC 6946 taken with the LBC on LBT in Sep 2006. The LBT is equipped with two prime focus cameras that each covers $23'$ field of view. They are being commissioned in Fall 2006 and will be start scientific operation in Jan 2007.

■ Description of the Observations and Immediate Objective

you have two page here.
